

EAHP's current policy and advocacy priorities are:

1. **Implementing the 44 European Statements of Hospital Pharmacy;** [1]
2. **Creating a Common Training Framework (CTF) for hospital pharmacy specialisation;** [2]
3. **Achieving EU level action on the pan-European health threat of medicines shortages;**[3]
4. **Leveraging the role of the hospital pharmacist in combatting antimicrobial resistance;**[4]
5. **Advocating for the involvement of hospital pharmacists in procurement;** [5]
6. **Achieving the bar coding of medicines to the single unit of the primary package in order to facilitate bedside scanning checks in hospitals;** [6]
7. **Promoting the unique position of hospital pharmacists in the appropriate utilisation of biosimilar medicines;** [7]
8. **Ensuring the opportunities provided by eHealth and mHealth technology maximise and not compromise patient safety and outcomes;** [8]
- 9.

Improving the regulation of clinical trials to increase the transparency of reported results; [9]

10. **Brining about multi-stakeholder and inter-governmental debate and resolution on the challenge of medicine pricing in order to ensure access;** [10]
11. **Securing improvements in the way medical devices are assessed and regulated in Europe;**[11]
12. **Ensuring public spending austerity does not compromise decades of improvement in health service delivery;**[12]
13. **Upholding the role of the hospital pharmacist as guardian of patient safety;** [13] and,
14. **Increasing the uptake of hospital pharmacist roles in medication reconciliation and review as a key part of the European response to increasing prevalence of polypharmacy.** [14]
