THE 2016 EAHP CONGRESS

Dear Colleagues,

Welcome to Vienna, a romantically imperial city in the heart of Europe and home to Mozart, Beethoven, Schubert, Johann Strauss, Sacher Torte and Lippanzer horses. This historic city combines the elegance and splendour of the past with modern architecture and design.

EAHP is pleased to invite you to the 21st Congress of the EAHP, 16-18th March 2016, with the theme of 'Hospital pharmacists taking the lead - partnerships and technologies'. The scientific program is well advanced and is relevant for you as a hospital pharmacist dealing with the challenge of rapid technological change in healthcare. The role of the hospital pharmacist is not only to use these new technologies in their own practice but also to influence decision makers, multidisciplinary team members and patients about the appropriate use of these technologies in the medication process.

EAHP's annual congress is the largest congress for hospital pharmacy in Europe and is attended by pharmacists from all over the world. This Congress continues to provide you with an exceptional opportunity to meet, network and share expertise and best practice with colleagues while keeping up to date with the latest developments in hospital pharmacy.

I am honoured in my first year as President of EAHP to invite you to this Congress. I hope that with the announcement of this major event you will plan your attendance at the EAHP congress in Vienna.

See you in Vienna!

Mrs Joan Peppard, EAHP President-Elect

FOREWORD BY THE CHAIRMAN OF THE SCIENTIFIC COMMITTEE

Dear Friends in European Hospital Pharmacy,

"Hospital pharmacists taking the lead - partnerships and technologies" will be the theme for the presentations at the Vienna 2016 EAHP Congress.

Most hospital pharmacists across Europe feel the need for the development of skills and services for the future of their profession. The challenges are mostly as a result of the current economy but also expectations and needs for new hospital pharmacy services are the opportunities and driving forces in the process of change.

The 21st EAHP Congress will offer you inspiration for the process of developing your every day job and influencing the future of your profession, when you will take the lead.

Keynote presentations such as "Patient partnership in healthcare, a necessary transition?" will open your eyes for the new trend we are facing now: patient partnerships. Are we prepared for future technologies and the implementation into our working environment, as will be addressed in keynote 2? Attend keynote 3 to gain insight in the pipeline of new drugs that are under development, or should we face other tools in pharmacotherapy.

The 15 congress seminars, which are open for interaction with the speakers, are related to three themes: Pharmacotherapy, Technology and Partnership. The theme Pharmacotherapy will be highlighted by seminars on breakthroughs in antiviral therapy, focus on antibacterial drugs and anti-cancer therapy. The second theme, Technology sessions will focus on the hospital pharmacist in an e-health environment, e-learning and new technologies implemented in our hospitals. In the third theme the patient involvement is prominent and deals with redesigning services around the patient and new emerging roles for pharmacy staff.

All subjects for presentations are in the form of seminars with presentations by two or three speakers and time for questions. Along with keynotes and seminars there will be a presentation of the abstract poster prize nominees and the Good Practice Initiatives (GPI's). Also workshops within the theme of the congress will be given providing inspiration within clinical pharmacy and medical devices, such as antibiotic stewardship, writing an abstract and others. Based on the success of last year's congress, the Synergy program will continue with several relevant topics.

Join the 21st EAHP Congress in Vienna, a town that does not need an introduction and where good living, culture and science come together, providing an ambient and friendly atmosphere for EAHP members and participants from around the world.

Come and enjoy.

Prof. Dr. C. (Kees) Neef, EAHP Scientific Committee Chairman

21st Congress of the EAHP – 16-18 March 2016 – Vienna, Austria Venue : Austria Center Vienna

Preliminary Scientific Programme

Theme: **Hospital pharmacists taking the lead - partnerships and technologies**

Keynote 1: Patient partnership in healthcare, a necessary transition?

Keynote 2: Star Trek's tricorder: science fiction or future science?

Keynote 3: Exploring the future of pharmacotherapy

Partnership

- P1 Redesigning services around the patient
- P2 New and emerging roles for pharmacy staff
- P3 Clinical pathways concept - a key to seamless care
- P4 Sharing pharmacy information for safer transition of care
- P5 Clinical services with benefits: medicines optimisation

Technology

- T1 The pharmacist and the e-health revolution
- T2 Empowering patients through technology – "The quantified Self"
- T3 E-learning: where to use and how to implement
- T4 Are clinical decision support systems beneficial for everyone?
- T5 Novel ways of dispensing drugs

Pharmacotherapy

- PH1 "Wonderpills", breakthroughs and continuing challenges – HIV and Hepatitis C antiviral treatments revisited
- PH2 Cancer Therapy: review of the present and a look to the future
- PH3 Developing new strategies in bacterial infections
- PH4 Advanced therapy medicinal products - new competencies in hospital pharmacy
- PH5 Individualised therapy - managing the differences

Other Sessions

6 Workshops; Synergy Satellites
