## THE 2019 EAHP CONGRESS

Dear Colleagues,  
Let me invite you to Barcelona, a city which has more than 2000 years of history and yet it is one of the most modern cities in the Old Continent. Barcelona is one of the most famous cities in the world, due to its beauty, architecture and (of course!) football. While the city may seem to be well known, it will continue to surprise you by its beauty and life.

EAHP is very pleased to invite you to the **24th EAHP Congress**, which will take place in this gorgeous city from 27-29 March 2019. The Congress theme is ***“Personalised Hospital Pharmacy – meeting the needs of every patient”***. The title itself says a lot. The origins of the pharmacy were very much personalised and recently we have been rediscovering the need for tailored medication and approach to treatment for different patient groups and individuals. The scientific programme of the Congress is also tailored to the needs of individual hospital pharmacists and their interest groups as the Congress offers the possibility to choose between many parallel sessions, keynote presentations, workshops and symposia. EAHP believes that the role of hospital pharmacists in personalised medication is the key to success. Therefore, we are preparing an advanced program that will serve as the source of knowledge and inspiration that are needed for our future role and engagement in personalised medication.

The EAHP Congress is also an opportunity to meet colleagues from Europe and all over the world, to share experience and ideas and to learn from each other. EAHP is fostering advancement in hospital pharmacy practice for the benefit of our patients. Sharing expertise and best practices is certainly one of the best ways to accelerate our success. This EAHP Congress, the largest hospital pharmacy Congresses in Europe, provides an optimal platform for this sharing and education but also for the pure joy of meeting fellow hospital pharmacists, colleagues and friends.

It is my great honour to invite you, on behalf of EAHP, to our Congress. I hope that the information in this announcement will help you to decide to attend. See you in Barcelona!

*PharmDr. Petr Horák, EAHP President-Elect*

## FOREWORD BY THE CHAIRMAN OF THE SCIENTIFIC COMMITTEE

Dear Friends in European Hospital Pharmacy,  
***“Personalised Medicine – meeting the needs of every patient”*** will be the theme for the presentations at the Barcelona 2019 EAHP Congress. During last year’s congress, you showed what you can do. I suppose that you did this also in your own hospital. Did you catalyze some process in your pharmacy this year? If so, it probably took a lot of effort and was it successful? I hope so for you and your colleagues.

This year we will help you to focus more on the patient. Individualised pharmacotherapy is the tool that we will use to create an atmosphere where pharmacotherapy is tuned for the patient who will be treated as a unique individual. “Show us what you can do” was the theme of last year’s congress but it is also applicable this year. This is an invitation to all of you.

The **24th EAHP Congress** will offer you inspiration for your plans to improve the pharmacotherapeutic skills of your marketing strategy for all the good things you might do for the patients in your hospital on an individual base. The first Keynote presentation is dedicated to “Omics”. This is one of the tools we can use to individualise medical treatment. The next day the human factor will be the subject of the second keynote lecture.

Like last year we related the more than 20 seminars and workshops, which are open for interaction with the speakers, to the categories of the Statements.

This year, the presentations are in the form of seminars with presentations by two or three speakers and time for questions. Along with keynotes and seminars there will be presentations from the abstract poster nominees and the Good Practice Initiatives (GPIs). In addition, workshops within the theme of the congress will be given providing inspiration within clinical pharmacy and medical devices, such as, antibiotic stewardship, writing an abstract and others. Based on the success of last year’s congress, the Synergy programme is extended and will continue with many relevant topics.

Join the 24th EAHP Congress in Barcelona, a town well known by many of you. It has hosted the EAHP yearly congress already several times and it is the town where living, culture and science come together providing an ambient and friendly atmosphere for EAHP members and participants from around the world.

Come and enjoy.

*Prof. Dr. C. (Kees) Neef, EAHP Scientific Committee Chairman*
