## THE 2014 EAHP CONGRESS

Dear Colleagues,

Welcome to Barcelona, the city of the bizarre and colourful architecture by Antoni Gaudí!

EAHP is pleased to invite you to the 19th congress of our association, an event that continues to be an excellent opportunity to meet colleagues, learn the newest developments of the hospital pharmacist profession and join the industry exhibition.

The scientific committee is already in the process of developing the 2014 programme around an exciting topic: "The innovative hospital pharmacist – imagination, skills and organization".

To look on innovation is a part of leadership, to judge the value of innovation requires comprehensive skills and to implement innovation is a challenge. Hospital pharmacists must be part of it and I am sure that after the congress you will have received much inspiration for your daily work.

"We are responsible for what will happen in the future", Karl Raimund Popper said and J.A. Schumpeter added, "Innovation is creative destroying". We have to abandon some sloppy tradition to move on and let the future happen, but we have also to do it with sensible and well weighted action. Working together with other professionals and our colleagues in primary care is paramount in achieving that goal. We can really only innovate by understanding the different perspectives of other professions and the needs of our patients.

Barcelona is a good location to discuss innovation: the modern part of this city and the liberty style of the buildings by Gaudí merge the past and future in a unique way. Enjoy the experience of visiting the "Sagrada Família", the UNESCO World Heritage Site still under construction, walk along the famous promenade of Barcelona and have a rest in the Parc Güell admiring the city from the top of the hill. Upon your return home you will treasure your time with EAHP and the city of Barcelona with only fond memories.

See you in Barcelona!

**Dr. Roberto Frontini, EAHP President**

## FOREWORD BY THE CHAIRMAN OF THE SCIENTIFIC COMMITTEE

Dear Friends in European Hospital Pharmacy,

"The innovative hospital pharmacist – imagination, skills and organization" will be the frame for the presentations at the Barcelona 2014 EAHP Congress.

Most hospital pharmacists across Europe feel the need for the development of skills and services for the future of their profession. The challenges are mostly coming from economy but also expectations and needs for new hospital pharmacy services are the opportunities and driving forces in the process of change.

The 19th EAHP Congress offers you inspiration for the process of developing your every day job and your influence of the future of your profession.

Keynote presentations such as "innovation in a scenery of shrinking budgets" will open your eyes for the general trend we are facing now. Are we prepared to be a hospital pharmacist in 2020, keynote 2; and how we manage all the knowledge that becomes available through the new media and technology will be presented during keynote 3.

Seminars, which are open for interactions with the speakers, will be dealing with the need for specialization for the hospital pharmacist as seen in some European countries but missing in most others. This year the seminars are related to three themes: New Health and economy challenges, The Hospital Pharmacist 2020: a job description and Re-engineering the hospital pharmacy organisation. The first theme will be highlighted by seminars on reimbursement, targeted medicines, benchmarking, the definition of an innovative drug, therapeutic equivalence and drug shortages. The second theme deals with our vision on our future, pharmacy practice research and clinical trials and ethical committees. The third theme looks very challenging: should we re-engineer our services like compounding, clinical pharmacy services or drug supply.

All subjects for presentations are in the form of seminars with presentations by 2 speakers and time for questions. Along with keynotes and seminars there will also be the Highlights of Spanish Hospital Pharmacy, where our young and dynamic Spanish colleagues will present the running topics in Hospital pharmacy in Spain today. Workshops will also be held reflecting the theme of the congress and will provide inspiration within clinical pharmacy and medical devices. The Synergy Satellite programme which debuted during the Paris congress will continue and is also accredited, whereas the industry satellites for the most part are not.

Join the 19th EAHP Congress in Barcelona, a city that needs no further introduction, where good living and science are well integrated and so will be our 19th congress. We invite you to join EAHP and enjoy this informative congress and fabulous city.

**Prof. Dr. Cees Neef, EAHP Scientific committee chairman**

## 19<sup>th</sup> Congress of the EAHP – 26-28 March 2014 – Barcelona, Spain Venue : The CCIB - Centre de Convencions Internacional de Barcelona

### Preliminary Scientific Programme

Theme: **The innovative hospital pharmacist - imagination, skills and organisation**

Keynote 1 : Accommodating innovation against a background of shrinking budgets

Keynote 2 : The Hospital Pharmacist 2020: a new profile

Keynote 3 : Knowledge management in times of information overload

### Seminars:

#### New health and economic challenge

SN1 Health service reimbursement

SN2 Targeted medicines?

SN3 Benchmarking in drug utilisation

SN4 What is an innovative drug?

SN5 How therapeutic equivalence can influence the cost of drugs

SN6 Drug shortages

#### The HP 2020 : a job description?

SH1 New perspectives - hospital pharmacy in primary care

SH2 Pharmacy practice research

SH3 Pharmacists' involvement in clinical trials and ethical committees

SH4 Redesigning pharmacy careers

SH5 Development in pharmacy education

#### Re-engineering HP organization

SR1 Re-engineering drug preparations

SR2 Re-engineering the drug supply chain

SR3 Re-engineering clinical pharmacy services

#### Other Sessions

Highlights of Spanish Hospital Pharmacy; 3 Workshops;  
Synergy Satellites
