

Tuesday, 23 March 2021 to Sunday, 28 March 2021

With its theme “Hospital Pharmacy 5.0 The Future of patient care”, the 25th EAHP Congress that takes place virtually from 23-28 March 2021, is all about impactful, innovative technologies that will shape the way how pharmaceutical care is delivered in hospitals.

The Congress will cover the ongoing challenges in our work, like tackling antimicrobial resistance, delivering seamless care, raising the quality of hospital pharmacy compounding, moving forward advances in clinical pharmacy, increasing the role of hospital pharmacists in the multidisciplinary teams in hospitals and on the interface with community or outpatient settings, to name a few of them. Another exciting event of the Congress will be the Student programme where pharmacy students, young professionals and anyone can connect and share inspiration, research and experience to make valuable connections for the future.

Along with joining the discussion on the latest developments and future trends in innovative technologies, you will also be able to attend a cutting-edge exhibition with more than 40 exhibitors, including several start-ups presenting their latest innovative hospital pharmacy solutions.

If you are interested in the future of hospital pharmacy, then the 25th EAHP European Congress is an unmissable opportunity to join important discussions, share your knowledge and learn about the latest technologies and developments. The EAHP Congress is also an ideal time and place to exchange our experience and find new professional connections and friends. Don't miss this opportunity.
