Dear Colleagues,

It is with great pleasure and privilege that I invite you to the 27th EAHP Annual Congress, taking place from the 22nd to the 24th of March 2023.

These last few years have brought a significant era for the European hospital pharmacy profession, during which our commitment to patient-care and medication safety, as well as to our dedication towards evidence-based medicine, was put to a major test. I believe that the hospital pharmacy profession steadily took to the challenge and prevailed. Moreover, the pandemic enabled novel roles for hospital pharmacists to be taken and, therefore, provided further recognition and expanded visibility for all the services our colleagues offer and fulfil.

Our moral imperative dictates our devotion toward helping those in need. It is our duty to provide the best possible care for our patients – spanning from the initial steps of drug design to our ultimate goal: treatment success. A success that is not solely defined by medical parameters, but also through the patient's perceptions and engagement to play an active role in their own journey towards recovery.

Building on the success of previous meetings, EAHP decided to embrace new locations and a more diverse format for its in-person events, enabling the Association to host the annual congress in a new city: Lisbon.

The scientific programme will encompass this wide horizon and provide an insight into these different and distinct, but also overlapping, sub-specialities. I am sure that the Congress programme will effectively enable us all to grasp this rather complex landscape and to take home with us some valid answers.

I am very much looking forward to meeting you in Lisbon!
