

EAHP's SIG on Automated Medication Management is looking for input

12 May 2022

The European Association of Hospital Pharmacists (EAHP) has established a Special Interest Group (SIG) on Automated Medication Management to investigate the benefits of automating medication management, particularly around the medication preparation/ compounding/ dispensing process, and how technology best meets the needs of different hospital pharmacy workflows.

To support the work of the SIG a survey has been designed aiming at the collection of views and opinions on the current and future use of automated medication management solutions. Individual hospital pharmacists are invited to complete this survey.

Participation is completely voluntary. It should take approximately 10 to 15 minutes to complete the survey. Feedback can be shared until the 26th of June 2022 via one of the four different language versions of the survey (English, French, Polish and Slovak).

EAHP's SIG looks forward to receiving your input via the survey on automated medication management.

1. The European Association of Hospital Pharmacists (EAHP) is a not-for-profit organisation that defends the interests of more than 23.000 European hospital pharmacists from its 36 full and associate member organisations. EAHP works to develop knowledge on hospital

pharmacy to ease the improvement of care and outcomes for patients in the hospital setting. The Association achieves this through science, practice, research, education, as well as sharing best-practice and responsibility with other healthcare professionals. More information about EAHP is available [HERE](#) [2].
