Utrecht Institute for Pharmaceutical Sciences, Utrecht University

Country:

The Netherlands

1. Current Status, Position

Hospital pharmacist, epidemiologist

2. Education

- 2003: PharmD at University Utrecht
- 2004-2008: Resident Hospital pharmacist at Maastricht University Medical Centre
- 2008-2009: Hospital pharmacist at St. Jans Gasthuis, Weert
- 2009: Hospital pharmacist at Radboud University Nijmegen Medical Centre
- 2012: PhD at Maastricht University Medical Centre
- 2014: Epidemiologist

3. Research Area

Hein's research focuses on adherence to treatment and epidemiology. Hein is specialized in adherence research and the application of several different adherence measures into clinical trials and observational research. Within this context and in collaboration with Maastricht University Medical Centre (dr. F. de Vries) epidemiology and drug utilization are key indicators for research. Hein supervises several PhD students and is tutor of pharmaco-epidemiology at Radboud University.
