Pharmacists – Ensuring access to health
Exploring our impact on providing medicines, care and information

We are very pleased to announce that in 2014, the International Pharmaceutical Federation (FIP) will host its Annual Congress in Bangkok, in collaboration with the Pharmaceutical Association of Thailand under Royal Patronage (PAT) and its Thai partners.

Access to medicines, care and information - The pharmacist is at the heart of it all. The 2014 FIP Congress in Bangkok, Thailand, invites pharmacists and pharmaceutical scientists from all over the world to delve into the globally pressing issue of access to medicines - and healthcare in general - and to work towards increasing the role of the pharmacist in the provision of healthcare services.

Examining key challenges such as medicines availability, health workforce distribution and managing the vast amounts of variable information accessible to patients, the FIP Congress in Bangkok will offer all participants the opportunity to increase their impact in ensuring access to health by providing medicines, care and information.

All Thai pharmacists are greatly looking forward to welcoming the participants of the 2014 FIP Congress in Bangkok to learn more about pharmacy in Thailand and to experience the wonderful Thai hospitality!

Come to the FIP Congress in Bangkok and gather at the most important meeting place for our global network of pharmacists. We look forward to seeing you there!
