

[1]The European Association of Hospital Pharmacists (EAHP),

and its 35 member country platforms are creating **a common training framework** [2] for hospital pharmacy education in Europe.

The framework will support the raising of standards in hospital pharmacy practice and thereby enhance the quality of, safety of, and equity of access to, patient care in every European country.

It will provide a key tool for all countries in delivering the vision of the **44 European Statements of Hospital Pharmacy**[3].

To learn more about this project click **HERE** [1].

CTF CONSULTATION!

The ?draft common training framework? for hospital pharmacy developed by the working group was submitted to a public consultation (in a Delphi approach) from March to April 2017. The working group is currently reviewing the results of the consultation.

Last update: 14 August 2017
