

Internships

European Statement of Hospital Pharmacy 6.1:

Placements via the EAHP-EPSA Internship Platform are typically 1-3 months long and can be provided on a voluntary basis or the hospital can provide the intern with reimbursement opportunities. Undergraduate pharmacy curricula should include experience of hospital pharmacy practice opportunities. Interested applicants can find the conditions of each placement in the database.

The role of all hospital healthcare practitioners, including hospital pharmacists, should be integrated into the curricula of other health professionals.
