

CRITERIA FOR GPIs

To be considered for GPI submission, the improvements in hospital pharmacy services **must** respect the following **eligibility criteria**:

1.

Have been conducted within the past 5 years.

2. Add value, offer improvement on common forms of European hospital pharmacy practice, solve a problem or be an innovative solution to an existing issue.
3. Communicate what was done, how it was done, why it was done, and what has been achieved.
4. Be transferable to other countries and settings.
5. Include supporting references (links).
6. Include contact details of author to allow interested parties to request more information.
