

[Home](#) > Claim your ACPE certificate now!

---

Please click **HERE** <sup>[1]</sup> to process and claim your ACPE certificate from your participation to the 21st EAHP Congress, 16 - 18 March 2016 in Vienna.

Please note that in order to receive your ACPE certificate, we kindly ask you to first fill in the evaluation forms for the sessions you have attended.

**IMPORTANT NOTE:** ACPE now requires that all pharmacy continuing education credits be processed and claimed within 60 days from the date of the live activity.

You may either print via regular printer or you may save as an adobe pdf. Either your user name and password or your congress badge number are required to download and print this information.

**Thank you for your cooperation!**

The European Association of Hospital Pharmacists (EAHP) is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

<sup>[2]</sup> is the American agency for accreditation of professional degree programmes in pharmacy and providers of continuing pharmacy education, including certificate programmes in pharmacy. Accreditation is the public recognition granted to a professional degree programme in pharmacy or a provider of continuing pharmacy education, including certificate programmes in pharmacy that is judged to meet standards through periodic evaluations.

Note that only seminars and keynote presentations are accredited. Click on the ACPE logo to visit the website of the Accreditation Council for Pharmacy Education.

### **For licensed pharmacists and pharmacy technicians for the USA**

ACPE and the National Association of Boards of Pharmacy (NABP) are developing a continuing pharmacy education (CPE) tracking service, CPE Monitor, that will authenticate and store data for completed CPE units received by US-licensed pharmacists and pharmacy technicians from ACPE-accredited providers as the EAHP. This service will be particularly helpful to the growing number of pharmacists who are licensed in multiple states, and thus may need to meet the varied CPE requirements of different state boards of pharmacy. The CPE tracking system will create a direct link for sending CPE data from the EAHP to ACPE and then to NABP, ensuring that all reported CPE units are officially verified by the EAHP. To view and track these credits, you must first set up an NABP e-Profile ([www.nabp.net/#](http://www.nabp.net/#)) <sup>[3]</sup>, obtain your NABP e-Profile ID, and register for CPE Monitor.

So for each licensed pharmacist from the United States of America who attends the congress,

their NABP e-Profile ID and date of birth are requested to be sent out to [congress\[at\]eahp\[dot\]eu](mailto:congress[at]eahp[dot]eu) <sup>[4]</sup> in order to notify NABP and ACPE of the number of CPE units collected by each US participant during the Vienna congress 2016. After CPE units are processed by ACPE and NABP, you will be able to access information about your completed CPE through your NABP e-profile ([www.nabp.net/#](http://www.nabp.net/#) <sup>[3]</sup>).
