

Last chance to submit your abstract and GPI!

The poster exhibition and the oral poster communication

session are the mainstay of the annual European Association of Hospital Pharmacists (EAHP) Congress and only the best are selected!

The EAHP Scientific Committee (SC) encourages all hospital pharmacists and other health care professionals and interested scientists to submit their work for consideration leading to acceptance and display at the annual EAHP congress. The SC strives to receive submissions of hospital pharmacy practice pearls from applicants in Europe and all over the world. All potential contributors are requested to carefully read and comply with the guidelines.

***If your abstract was accepted for the 2020 EAHP Congress in Gothenburg, you do not need to resubmit it again. Your abstract will be automatically transferred as an "accepted" abstract for the 2021 EAHP Congress in Vienna. Resubmitting your abstract will result in automatic rejection.**

Generally speaking, the SC is looking for contributions

with:

- A **high grade of relevance and/or innovation** to the European community of Hospital Pharmacists,
- A **high impact on the future** of hospital pharmacy practice, or

- A **high relevance regarding practice changes** due to the investigated intervention.
