The International Pharmaceutical Federation (FIP) and the Emirates Pharmaceutical Society (EPS) are excited and honoured to host you here in Abu Dhabi for the 2019 World Congress of Pharmacy and Pharmaceutical Sciences.

New trends in science, practice and education are creating new horizons for the pharmacy profession. Innovations in technology, such as robotics and digital health, are changing the role of healthcare professionals, scientists and educators. New skills and attitudes need to be developed by pharmacists, pharmaceutical scientists and educators around the world to adapt to these new roles.

Description of Conference

The FIP world congress in Abu Dhabi in 2019 will offer a collaborative platform for researchers, practitioners, educators and students of pharmacy to share their new achievements in a world of change. Plenary sessions, panel discussions, workshops and networking will provide an up-to-date overview of the latest research to advance the field of pharmacy.

Welcome to this festival of discovery and inspiration — the future of pharmacy is bright!
