EAHP Academy Seminar

30 September – 2 October 2016

"Medicines Review – Needing and Sharing the Hospital Pharmacist's Excellence for Better Clinical Outcomes"

Kees Neef, EAHP Director of Education, Science & Research

Helena Jenzer, EAHP Member of the Scientific Committee

- Conflict of interest: nothing to disclose

EAHP Academy Camps

- **2008** - Krakow, Poland
“Patient Safety; More About Compounding”
- **2009** - Vilnius, Lithuania
"Quality Management and Leadership“
- **2010** - Riga, Latvia
“Logistics of pharmaceuticals in hospitals”
- **2011** - Belgrade, Serbia
“Patient safety: the role of hospital pharmacists in risk management”
- **2012** - Thessaloniki, Greece
"What do we need to know about building or reconstructing a hospital pharmacy?“
- **2013** - Lisbon, Portugal
"Pharmacoeconomics - tools, strategies and beyond."
- **2014** - Prague, Czech Republic
"Pharmacoepidemiology – methodology and tools“
- **2015** – Zagreb, Croatia
"from Medicines Reconciliation to Medicines Optimisation"
- **2016** – Bucharest, Romania
"Medicines Review – Needing and Sharing the Hospital Pharmacist’s Excellence for Better Clinical Outcomes" / "Working together differently – a new approach to quality management"
- **2017** - ?? Topics: Pharmaceutical Research / Anti-infectives Stewardship

The speakers and workshop coaches

[Biographies from the EAHP website www.eahp.eu](http://www.eahp.eu)

Educational need

- Emerging topics in EAHP Congresses
 - Effectiveness, appropriateness, accuracy, and objectives of pharmacotherapy
 - Drug related problems and/or readmissions
 - Interface of procurement, clinical pharmacy & patient safety
- Proposal by the Board and by the Scientific Committee
- Linked to European Statement on Hospital Pharmacy
 - 1.1, 1.4, 1.5 (multidisciplinarity, supervision of medicine use)
 - 2.2, 2.7 (leadership in medication review, policy for patient's own drugs)
 - 4.1 – 4.6 (therapeutic decision-making)
 - 5.2, 5.4 - 5.9 (several tasks related to patient safety and quality assurance)
- Harmonisation and unanimously approved structure

Dissemination of take home messages

- The EAHP has partially delegated evaluations of the Academy Camps to the National Associations
 - Presentations and workshops at General Assemblies
 - Separate symposia
- Do not forget:
Please **feed back EAHP on fulfillment** of this task!

EAHP Academy Seminar

30 September – 2 October 2016

"Medicines Review – Needing and Sharing the Hospital Pharmacist's Excellence for Better Clinical Outcomes"

Kees Neef, EAHP Director of Education, Science & Research

Helena Jenzer, EAHP Member of the Scientific Committee

Evaluation of learning success

- **Baseline at the beginning of the Academy Seminar**
- Scores at the end of the Academy Seminar

Plenary Podium Discussion on further aspects and seamless medication review

Education

- *Are pharmacists trained and skilled to extract information from the patient's record to advise therapists who have a close clinical insight in the case? (e.g. hypokalaemia)*
- *What are the training needs at basic education, specialisation and continuing education levels for this kind of shared responsibility and leadership?*

Plenary Podium Discussion on further aspects and seamless medication review

Excellence

- *Pharmacology and biochemistry are presumably a pharmacist's skills, but is the his advice well perceived and appreciated by the highly specialised experienced physician / therapist?*
- *What additional information from laboratory data, TDM, pharmacokinetics, phenotyping / ...omics or further diagnostic tools does the hospital pharmacist need for the personalised medicines review?*

Plenary Podium Discussion on further aspects and seamless medication review

Appropriateness

- *Is the pharmacist skilled and qualified to assess the inappropriateness of a pharmacotherapy? (as compared to a “qualified person” in QA)*
- *Shouldn't he/she be participant in interdisciplinary ward rounds as opposed to pure pharmaceutical medicines review (e.g. nutrition support team)?*
- *Can a hospital's medicines selection contribute to limit inappropriate prescribing and drug related problems (e.g. medicines not metabolised by the intestinal nor hepatic CYP450 isoenzymes)?*

Plenary Podium Discussion on further aspects and seamless medicines reconciliation

Quality Assurance

- *Under which norms or guidelines can medication review be supervised?*
- *In terms of analysis (ICH guidelines), how is accuracy, precision, repeatability, reproducibility, and robustness of medication review validated? (supervision of the supervisor)*
- *Is medication review a pure (technical) issue and thus automatable (Clinical Decision Support System) or does it need a scientific (not-automatable) reasoning?*

Plenary Podium Discussion on further aspects and seamless medication review

Harmonisation / Next steps

- *How to respond to country-specificities?*
- *How to harmonise the achievements of advanced countries with emerging ?
(compared to the resolution on hospital manufacturing and preparation)*
- *Option: Stewardships – Best Practices – Risk Assessment?*
- *Long-term achievements and stabilisation?*

Parallel Workshops (World Café Style)

- 3 blocks
 - Troubleshooting Medication Review and Statements expansion (Fatma Karapinar, Bert van den Bemt)
 - Medication Review troubleshooting tools (Aude Desnoyer, Jane Smith)
 - Assessment and clinical importance of pharmacist's recommendations (Ulrika Gillespie, Tommy Eriksson)

Final Plenary Discussion – Bringing experiences together and making out commonalities

Evaluation of learning success

- Baseline at the beginning of the Academy Seminar
- **Scores at the end of the Academy Seminar**

Final remarks

Helena Jenzer, EAHP Member of the Scientific Committee

Kees Neef, EAHP Director of Education, Science & Research

That's all, folks!
Thank you for your time!
