#EAHP2023

The European Association of Hospital Pharmacists (EAHP) represents more than 23.000 hospital pharmacists in 35 European countries and is the only association of national organisations representing hospital pharmacists at European and international levels.

The European Association of Hospital Pharmacists (EAHP) is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

## THE 2023 EAHP CONGRESS

**D**ear Colleagues,  
It is with great pleasure and privilege that I invite you to the 27<sup>th</sup> EAHP Annual Congress, taking place from the 22<sup>nd</sup> to the 24<sup>th</sup> of March 2023.

These last few years have brought a significant era for the European hospital pharmacy profession, during which our commitment to patient-care and medication safety, as well as to our dedication towards evidence-based medicine, was put to a major test. I believe that the hospital pharmacy profession steadily took to the challenge and prevailed. Moreover, the pandemic enabled novel roles for hospital pharmacists to be taken and, therefore, provided further recognition and expanded visibility for all the services our colleagues offer and fulfil.

Our moral imperative dictates our devotion toward helping those in need. It is our duty to provide the best possible care for our patients – spanning from the initial steps of drug design to our ultimate goal: treatment success. A success that is not solely defined by medical parameters, but also through the patient's perceptions and engagement to play an active role in their own journey towards recovery.

Building on the success of previous meetings, EAHP decided to embrace new locations and a more diverse format for its in-person events, enabling the Association to host the annual congress in a new city: Lisbon.

The scientific programme will encompass this wide horizon and provide an insight into these different and distinct, but also overlapping, sub-specialities. I am sure that the Congress programme will effectively enable us all to grasp this rather complex landscape and to take home with us some valid answers.

I am very much looking forward to meeting you in Lisbon!

**Dr. András Süle, EAHP President**

## FOREWORD BY THE CHAIRMAN OF THE SCIENTIFIC COMMITTEE

**D**ear Friends of European Hospital Pharmacy,  
"From drug design to treatment success – what really matters to patients?" will be the theme for the presentations at the 2023 EAHP Congress, in Lisbon. We'll critically assess the whole pharmaceutical process from the patients' perspective and pinpoint what really matters to them and how hospital pharmacists can make this happen.

The 27<sup>th</sup> EAHP Congress will offer inspiration to fulfil the patients' needs with respect for continuity and quality of pharmaceutical therapy and patient safety. It will not surprise you that communication, interaction and personalised approach are the themes for our three keynote lectures. Over 20 seminars and workshops will be presented, with topics related to research activities, e-hospital pharmacy, drug shortages, procurement, ATMP, quality compounding, pharmacogenomics, renal transplant, medication safety and efforts for a green hospital. Also, a seminar dedicated to a current topic in pharmacotherapy will be added. Along with keynotes and seminars, best practices will be disseminated by our poster prize nominees and through the Good Practice Initiatives. In addition, workshops within the theme of the congress will be given and the Synergy programme is extended with relevant topics.

Join the 27<sup>th</sup> EAHP Congress in Lisbon, a sunny city with beautiful architecture, Fado music and very tasty food and sweets. This attractive university city, provides an ambient and friendly atmosphere with lots of 'couleurs locale' where we can all meet.

**Prof. Dr. Thomas De Rijdt, EAHP Scientific Committee Chairman**
